## Experience

Frontend developer PRNK Infotech LLP

Sep 2024- Jan 2025

- [Sistahchatta](#) : Developed a dynamic, fully responsive product review web app that allows users to rate and review products. Utilized TypeScript, React, Next.js, Tailwind CSS, ShadCN UI, and React Query to implement key features such as complete user profile management, authentication, an admin dashboard, and infinite scrolling across all pages.
- [Spendcraft](#), [PauseMy.cloud](#), & [QRCode](#) Projects: Translated detailed Figma designs into high-performance, SEO-friendly, and accessible multi-page applications (6-7 pages each) using next.js, shadcn ui, and tailwind css, ensuring seamless user experiences across devices.
- Dashboard Revamp: Overhauled an existing dashboard application by migrating the codebase from material ui to tailwind css and shadcn ui. This transition reduced the overall codebase by 50% (from 10,000 to 5,000 lines) while enhancing code maintainability and performance.

Frontend developer intern, freshbuyzar [live](#)

June 2024 - August 2024

- Enhanced site performance by 40% through optimized server-side rendering and static site generation techniques, integrated online payment gateways to streamline the purchasing process and implemented cart & authentication features using context api.
